COMPANY PROFILE

Dongguan Xunwang Electronic Technology Co., Ltd. is a professional manufacturer engaged in R&D and production of network connector RJ11 RJ12 RJ45 SFP, network transformer, filter and connector. Founded in 2005, the company has passed ISO9001:2015 quality management system certification. After more than ten years of development, the company has become a new product research and development, production and sales of integrated enterprises, with a strong R & D team, first-class production equipment and precision testing equipment. The company is headquartered in Dongguan, Guangdong, China, and has two production bases in Guangdong and Guangxi, with branches in Hong Kong. The factory covers an area of 10000 square meters, employs more than 200 people, and has a monthly production capacity of 2500K. All products meet the EU ROHS environmental standards and pass the FCC certification of the United States, we provide the most professional services and technical support to meet the needs of customers at home and abroad.
